

Join Jan-Steven Merson, for an exhilarating Street Photography Experience! Reach me via email, text, or call to discuss your dream photo locations and goals. I offer customizable one-on-one and group workshops across Southern Northern Orange County, select areas of Los Angeles, and beyond. If you cannot do a lot of walking advise me and I will accommodate you by offering you a one on one class, where we can make as many rest periods as you need.. Our session begins with a cozy coffee shop chat, diving into the basics of street photography, camera settings, and capturing eye-catching compositions, followed by a follow-up Zoom call to critique your progress. Let's capture those unforgettable street photography moments together! Prices may vary, depends on the location and travel time.
